POWERS IN JAIL EIGHT YEARS

Louisville, Ky., March 10.—Caleb Powers, more confident than ever that he will soon regain his freedom, today completed eight years of confinement in Kentucky jails as the result of his alleged complicity in the murder of William Goebel. Under the direction of Col. Sidney C. Tapp, a prominent Atlanta lawyer, a monster petition is being prepared asking for the pardon of Powers. It is expected to present this application for pardon to Governor Wilson at Frankfort within the next two weeks.

If the petition is not granted Powers will be placed on trial next summer for the fifth time.

BACKED UP BY A BOTTLE Effort to Secure Money Balked by Bank President.

Omaha, Neb., March 10.—An unknown anarchist entered the Merchants' National bank Tuesday and demanded a large sum of money, at the same time displaying a bottle, believed to contain nitro-glycerin, and threatened to blow up the bank if his request was not complied with. The man asked to see Vice President Drake in his private office. Mr. Drake seated himself opposite the man, who began talking in a rambling manner about having \$5,000 in the national Bank of Commerce of Kansas City when that bank failed. "And since all you fellows are in together you had just better hand over my money or I'll blow you and this bank and all of us to hell!" suddenly said the fellow, producing a three ounce bottle containing a thick yellow fluid. "Don't you make a move. This is filled with nitro-glycerin. If you move you are a dead man."

Drake told the man he would talk it over with him and the stranger accepted, all the time keeping the bottle in his hand and within sight. Noticing the man seemed thin and pinched, Drake asked him if he was not hungry.

"I have been studying over this matter several days and have not eaten a thing for forty-eight hours," answered the man with the bottle.

"Well, let us have breakfast and talk this over," proposed Drake.

"All right, but don't try any monkey business, or you are a dead man," replied the anarchist.

President Hamilton of the bank entered the next room during conversation and heard enough of it to enable him to know what was going on. As Drake and the stranger left the room together, Mr. Hamilton telephoned the police station for a plain clothes man and followed the two men to a nearby restaurant. Drake and the man were on opposite sides of the table when three detectives, accompanied by Hamilton, entered the room. Slipping up behind the stranger, a detective secured his arms and relieved him of the bottle. The bottle was sent to a chemist for examination.

Galveston, March 10.—Grant Cox of Bloomington, Ind., a traveling salesman for a well known vehicle house of that city, was found dead on the wharves of Pier 27 early Tuesday. The police found a telegram at his hotel shortly afterward containing a money order from the man's brother.

Hundred Had to Leave Homes and Firemen Hurt.

New York, March 10.—A score of firemen were injured, several of them seriously, 100 persons driven from their homes, and many buildings threatened by a fire early Tuesday, which destroyed the six-story brick building at 38 West Eighteenth street. The big Siegel-Cooper department store was seriously threatened at one time. The fire also got into the adjoining building, 32 to 36 West Eighteenth street, and before it was checked, caused a total loss of \$20,000. A back draft, which blew out every window in the burning building and scattered a shower of broken glass, was responsible for the injuries to many firemen.

San Francisco, March 10.—One of the buildings of the city and county alms house burned. In it when the fire broke out were 300 persons, mostly patients, recently moved from the city and county hospitals. Student Hurlled It at Professor, but Classmates Will Not Name Him. Chicago, March 10.—Twenty-eight medical students of the University of Chicago are facing suspension because one of their number threw a piece of a human leg from the dissecting room at a divinity professor. The professor complained to President Harry Pratt Judson, who asked for an explanation. Dr. J. Gordon Wilson and Dr. Basil Harvey, who are in charge of a section in anatomy, questioned the entire class of twenty-eight students, but they were unable to write a confession from any one. The professors then informed them they were all liable to suspension.

The guilty student is declared to have been willing to confess and take the consequences, but the other members of the class refused to let him do so.

The president is flourishing the big stick over the heads of Congressmen who oppose the Aldrich bill.

If Roosevelt ever originated anything nobody can tell what it is. Even the big stick idea was borrowed from Castro.

"Hope springs eternal in the human breast," sang the poet, Thomas Campbell. For this reason men are naturally optimists. A pessimist is a pervert.

The redundant use of the word "loyal" by some Texas politicians and newspapers reminds some of us of reconstruction days.

The chief difference in the policies of Bryan and Roosevelt is that Bryan is an epluribusunum statesman while Roosevelt cuts out the epluribus and is a would be he could unum dictator.

King Alexander built a causey to get into Tyre in order to destroy it. King Commerce is building a causey get into Galveston in order that he may build it up, and Galveston is glad.

Curent Issue refers to the time when "the great Darius" crossed the Hellespont to invade Greece. Will Curent Issue please give date and a reference to authorities?

Governor Hogg was doubtless correct in his estimate that 95 per cent of the people are honest, but it takes an awful lot of expense to keep the other five per cent from breaking through and stealing what they have.

Why don't some enterprising paragrapher start that old pun about the forty days before Easter being like money on interest because they are Lent? It is no older than some of the other recent output of the jokesmiths.

Japan denies it, but acts like she was getting ready for war with China. If the present difficulty does result in a clash of arms the result may be different from that of the last war between these two great Oriental Nations.

A good while ago kleptomaniac came into use as a polite name for stealing. Now comes mythomaniac to perform the same service for lying. If a man tells a falsehood it isn't good form to say he has lied—just call him a mythomaniac.

The Eagle's general news service has been something of a hummer recently. Yesterday morning, for instance, it contained a good summary of Senator Bailey's speech on the Aldrich currency bill—the first to reach Bryan and Brazos county readers.

Some of the Fashion journals have been discussing the weighty question whether the man or the woman should precede in the procession behind the usher down the aisle. The decision ought to be referred to Wu Ting Fang, who is learned in the precepts of Confucius.

A daring Frenchman is fixing to cross the Atlantic in an airship. Let's hope he will get farther than Walter Wellman in his voyage to the pole. Each announced his determination to get there or bust, but Wellman did not arrive and the only thing he busted was his reputation.

A few days ago the Eagle hinted that a man has some right in determining the frequency and duration of kisses. The Chicago man who ran away because his wife kissed him almost to death is an illustration. He is willing to go back on a basis of six kisses a day. Even a good thing can be overdone.

A few weeks ago Eagle mentioned that the Johnson county candidates had boycotted the newspapers because the latter would not allow the former to dictate the price of announcements. But after a thorough trial the candidates have found they took up something too hot to hold and the boycott has been declared off.

The greatest nature fake of the season is a cartoon representing the g. o. p. elephant and the Democratic Donkey working together in double harness with the Trusts driving. The aforesaid illustrious and high bred Donkey will respond to the touch of the reins only when they are held by William Jennings Bryan, and would kick any other combination into smithereens.

This is a glorious country in which every man is entitled to his own opinion, and where he is not considered much of a man unless he has one. In opposing Baileyism and the selection of Senator Bailey as a delegate to the Democratic National Convention the Eagle does so on principle and without malice towards him or any supporter of his; denying to no man the right to uphold and support his own convictions. Nor will the writer allow this controversy to enter into consideration of the fitness of candidates for office who properly deport themselves in supporting their views and otherwise measure up to the standard of fitness.

CHAMPION GOLF PLAYER COMING

Mr. Tom McNamara Will Be Here for Opening March 12—What the Golf Club is Doing.

Could one of us have strolled over the hills and dales of Scotland some three hundred years ago, no doubt we would have witnessed some strange spectacles. Perhaps among other things we would have witnessed one of our forefathers standing on the side of a hill with a long handled, large headed club in his hand. Perhaps at his feet lay a small, spotted ball towards which he seemed to harbor much malice.

Perhaps after a few preliminary motions he executed a strenuous contention, literally shattered the ball, missed the ball and swore!

But let us hope not. Let us hope that he got a good stroke, grinned and beamingly told his neighbor that golf was a great game.

This is no improbable picture for, in very truth, golf was quite popular in Scotland and has continued so to the present time.

Everybody plays golf. The toothless octogenarian vies with the twelve-year old in interest in the game. While fundamentally a society game and not dangerous, at the same time it affords plenty of exercise and the only men with a grudge against golf are the doctor and undertaker.

The introduction of golf into the larger cities and towns of the United States has been an unqualified success, and through a combination of fortunate circumstances Bryan sports a golf club and grounds that, for its purpose, compares favorably with any in the state. The soil of the links is ideal, the location convenient, the course one of the best in the state, and fortunately the expenses of club membership the least in the state.

The grounds have recently been cleared, the greens leveled, flags placed and frequently over a score of golfers may be seen enjoying the intricacies of creak shots, brassie plays and tee drives. Although a number have been playing for some time the formal opening is to be held Thursday afternoon, March 12. On that date the local club is to be visited by Mr. Tom McNamara of Houston, famed throughout the state as the most expert golfer in Texas. A native of Scotland, and a professional, he learned the game in its very birthplace, has played it over the United States, and it is said he literally knocks the spots off the ball.

The golf grounds will be thrown open to every one on that date, and the Bryan public is invited out to see golf as "she is played."

A labor colony at which work may be given the unemployed of New York city and State is provided for in a bill before the New York legislature. An all-the-year-round colony is planned under State control, where the colonists will be able for one thing to raise enough agricultural products to feed the 25,000 inmates of the State institution.

MILES TO MEET GOULD.

New York, March 10.—A dispatch from London says that Eustace Miles will leave here today for this city, where he is soon to make an attempt to win the American amateur court tennis championship honors, as well as to regain the British championship which Jay Gould won from him last summer. Mr. Miles is said to be excellent form as the result of several months of steady practice.

MME. GOULD SAILS.

Coming With Children on Visit to Native Land.

Paris, March 10.—Mme. Anna Gould, accompanied by her children, will sail on the North German Lloyd Liner Kron Prinz Wilhelm from Cherbourg for New York. She expects to remain in America two months. It is reported that Prince Helie de Sagan also has made arrangements to leave for the United States.

Recently it was reported that Mme. Gould had married Prince Helie de

Sagan, but she immediately authorized an absolute denial of this. She also announced her intention of leaving at an early date for the United States with her children. To have her children with her on the trip it was first necessary to obtain the consent of Count Boni de Castellane, her former husband, as required by the divorce law.

CASTLE SHOT INTO.

Person Who Did the Firing Is Thought to Be a Lunatic.

Christiana, March 10.—A Swede, apparently insane, fustilladed the royal castle here with the Remington rifle. He fired altogether a dozen bullets, several of which crashed through windows and embedded themselves in the interior of the walls of the castle. The man was promptly seized by the police and disarmed. At the police station, he declared his intention to kill King Haakon. He still had forty or fifty cartridges in his pockets. King Haakon and Queen Maude were absent from the castle.

Rapidly Recovering.

La Paz, Bolivia, March 10.—The American minister to Bolivia, William Borsby, who was stricken with paralysis last January, is rapidly recovering.

What woman has ever availed herself of the privilege of proposing in a leap year? Nevertheless, it is interesting to discover whence the idea arose. "Her moist blossom majestie Margaret" decreed in the year 1288 that during her reign every maid of Scotland, whether of high or low degree, should speak to the man she loved. If he were not betrothed already, he must marry the maid or pay £100. Queen Margaret died, and the women were clamorous for this strange privilege to continue. To appease them an act of parliament was passed allowing the maidens to make their proposals every fourth year.—London Graphic.

There are bright prospects for the passage of a child labor bill by the Mississippi legislature. The measure calls for a fifty-six-hour week and places the minimum age at which a child can be employed in gainful occupations at fourteen years.

Governor Fort, of New Jersey, was recently interviewed by a delegation of union labor leaders, who entered a protest against the employment of paroled convicts on construction work at the Railway Reformatory for less wages than the union scale demands.

REVIVAL PROGRESS GOOD.

There Were Five More Conversions Yesterday—Rain Not Allowed to Interfere With the Work of Salvation.

There were good crowds at the Methodist church morning and evening yesterday for the revival services, notwithstanding the rain and cold. The church was warm and comfortable and the earnest preaching of Dr. Packard was blessed of the Lord in the salvation of souls at both services.

The text of the morning sermon was: "Him that cometh to me I will in no wise cast out." At night: "Behold now is the accepted time; now is the day of salvation." After a series of sermons which have greatly aroused many of the christian people. Dr. Packard is now urging the claims of the gospel upon the earnest attention of the unsaved. There have been fifteen conversions and several reclamations to date.

Rev. E. L. Shettles will arrive today to take part in the meeting. Rev. J. B. Turrentine, whose serious illness has been a matter of much concern, was reported some better yesterday afternoon.

The address of the president and the annual reports of the other officers were the chief features of the initial session. The address of President Greenwalt contained a brief summary of the progress made by organized labor in Pennsylvania during the past year, as well as numerous suggestions and recommendations for the consideration of the convention.

NEBRASKA REPUBLICANS FOR TAFT.

Omaha, Neb., March 10.—The advance guard of delegates has put in appearance in readiness for the Republican State convention which is to assemble here tomorrow to choose delegates to the Republican National convention. A small sized boom started some time ago in the interest of La Follette seems to have collapsed, leaving Secretary Taft virtually the unanimous choice of Nebraska republicans for the presidential nomination. The boom for the Secretary of War was given a good start early in January when the state committee adopted resolutions endorsing Taft for president. Since then a majority of the county primaries have resulted in the passing of similar resolutions, while the uninstructed delegates to the state convention are popularly supposed to lean toward Taft.

NIGHT RIDERS ARE BUSY.

They Make Themselves Known
at Three Points.

HUNDRED VISIT ONE TOWN

Take Possession of Place, Fire Into
All Cabins, Wounding Six Negroes
and Others Whipped, Over a Score
Warned to Depart.

Paducah, Ky., March 10.—One hun-
dred masked night riders rode into the
town of Birmingham, Marshall county,
late Monday night, shot six negroes,
one of them, it is believed fatally, and
whipped five others. The riders took
possession of the town and shot into
every negro cabin in the place. In
one of these, John Scruggs, his wife
and three children and granddaughter,
were struck by bullets. Scruggs was
probably fatally wounded. The riders
then took five other negroes to the
banks of the Tennessee river, where
they whipped them. After warning
about twenty-five other negroes to
leave the place the masked men rode
away. The raid followed a warning
two weeks ago to all negroes to leave
Birmingham.

FOUND DYING ON ROADSIDE.

Son of Association Tobacco Raiser
Lay Near Dead Horse.
Clarksville, Tenn., March 10.—Near
Woodford, fifteen miles from this city,
Brown Bennett, a young man, son of
an association tobacco raiser, was
found on a public road in a dying con-
dition with a bullet hole through his
head. Near Bennett were two dead
horses and three empty shotguns. It
is believed the young man had been
attacked by night riders. There is
great mystery surrounding the affair.
An investigation is being made.

Practical Warnings Left.

Henderson, Ky., March 10.—W.
Bradshaw, a farmer living on the
edge of this city, found a note at his
front door warning him against em-
ploying negroes. It was signed, "The
Thirty-Five." The note was accom-
panied by a bundle of switches, a
match and some cartridges.

ALFONSO AT BARCELONA.

Monarch of Spain Receives a
Great Welcome.

Barcelona, March 10.—King Alfonso
arrived in this city Tuesday and pro-
ceeded to the residence of General
Linares, captain general of Catalonia.
Where he will stay during his visit
here. He first visited the Church
of La Merceders, where a Te Deum was
celebrated. He was given a warm wel-
come by the people of this city. The
royal train drew into the station at
9 o'clock and its arrival was an-
nounced by the firing of salutes from
Austrian and Spanish warships in the
harbor. The big square outside of the
railroad station was lined with troops
and civil guards, who had difficulty in
keeping back the surging crowds. As
the king emerged from the station, ac-
companied by General Linares and
members of his personal suite, in bril-
liant uniforms, he was warmly greet-
ed. Smiling, he acknowledged the
plaudits of the people.
In the afternoon a reception was
held at General Linares' residence,
attended by notables. Barcelona is
gaily decorated.

MISSIONARY MOVEMENT.

First International Convention At-
tended by Numbers of Delegates.

Pittsburg, March 10.—The first in-
ternational convention under the aus-
pices of the Young People's Mission-
ary Movement opened at 11 o'clock
Tuesday in the big music hall of the
Pittsburg exposition. In addition to
the 1,600 delegates from all parts of
the world, there are 2,000 Pittsburgers
registered, who are participating in
the sessions. Practically every sec-
tion of the world is represented by
either delegates or missionary work-
ers. So large is the attendance it was
arranged to hold overflow evening
meetings.

Play Declared Immoral.

Newark, N. J., March 10.—At the
performance of "A Millionaire's
Revenge," at the Columbia theater
Monday night, police arrested George
W. Jacobs, manager of the theater;
John T. Pearsall, manager of Mitten-
thal Bros' Amusement company; Har-
old Vosburg, Guy and Louis C. Miller,
members of the company. They are
charged with producing an immoral
play, which is founded on the Thaw
tragedy.
